IF ONLY YOU COULD MAKE
THOSE BOTTLES DISAPPEAR

WITH BOTTLECYCLER - THEY'VE GONE!

BottleCycler crunches bottles down to just 20% of their volume. Quietly. In seconds. BottleCycler clears your bar of waste bottles, it cuts down on labour cost and eliminates the time-wasting chore of carrying out the empties. In other words it makes your bar more efficient and it saves you money. BottleCycler is stylish too - with colours and finishes to choose from. You can even specify the exact colour to match your own decor.

This wheelie bin holds 10 of the bar bins shown on the cover. And any of your staff can wheel it.

REDUCE GLASS WASTE BY 80%

Reduce those rows of smelly bins cluttering up your yard - create more parking space.

CHECK THE BENEFITS

- Quickly reduces glass volume by 80%.
- It's unbelievably quiet.
- It's the end of residential noise complaints about noisy binning and breaking bottles.
- Shift one bin a day instead of stacks of waste bins and crates. So cut the time and cost of labour.
- Totally safe operation, working parts beyond staff reach.
- Gain extra storage space, or a bigger sales area. (So how much does your bar cost per square foot..?)
- Cut collection fees. Instead of a truck every few days, all the average pub needs to dispatch is a couple of wheelie bins a week.
- BottleCycler looks stylish and modern, your customers will find it fascinating and your staff will enjoy using it.
- It's environmentally friendly. Cuts cartage; glass ready for recycling or for landfill.
- Dishwasher-sized cabinet to fit into modular bar layouts.
- BottleCycler is a low-cost, self-liquidating solution. Save a few staff-hours a week and it has paid for itself.
- BottleCycler costs as little as \$79 a week (+ gst) with three years' full, on-site warranty.
